Brainiac Bonanza
Quiz Competition

The Brainiac Bonanza, a quiz competition, organized by Cognizance Club, the quizzing club of IBS Jaipur, was a great success. The three-round quiz measured players' knowledge in the area of Global Economy, including currencies, commodities, stock markets, global trading hubs, trade agreements, trade barriers, and fundamental economic concepts. The questions were well-mixed to engage participants with varying levels of expertise, ranging from simple to challenging.

In the first round, all players competed individually, showcasing their individual prowess. The second round featured a rapid-fire format where participants played in teams of three. Teams with the highest scores advanced to the third and final round. The Finale round saw intense competition, culminating in a tiebreaker between two teams, adding to the excitement.

Participants in this event not only expanded their knowledge and picked up new skills but also cultivated a daring mindset. The Brainiac Bonanza provided a platform for students to engage with complex economic concepts in a fun and competitive environment, fostering both learning and camaraderie among the participants.
