

**Mr. Ashvini Kumar Mishra**  
**M.Tech (IIT Roorkee), B.Tech**  
**Assistant Professor (ME)**

Mr. Ashvini Kumar Mishra, M.Tech. (IIT Roorkee) and B.Tech. is an Assistant Professor in the Department of Mechanical Engineering. With over nine years of academic experience, he specializes in thermodynamics. His expertise includes teaching core mechanical engineering subjects and guiding students in research and practical applications. He has contributed to curriculum development and has been actively involved in mentoring students for projects and competitive exams. His research interests focus on energy systems, heat transfer, and sustainable engineering solutions. Through his dedication to academics, he continues to enhance the learning experience and foster innovation in the field of mechanical engineering.
