

## ***EAI Institutional Membership Memorandum of Understanding***

---

European Alliance for Innovation (hereinafter: EAI) addresses Europe's challenge of sustainable competitiveness, development and growth, through open grassroots innovation.

Recognising that:

- Education and Research are key to the generation of wealth by improving competitiveness of European companies;
- Open Innovation initiatives and actions are essential for the transfer of research results to society;
- Information and Communication Technologies (ICT) are enablers of radical changes in key business sectors influencing the future of European society in general, and in particular in Internet of Things, Smart Cities, E-Health and Well Being.

For reaching these objectives, EAI provides a federated platform that connects the strategic long-term view bringing together institutional members from industry, research, government and non-governmental bodies, with a community of individuals dedicated to research development and innovation based on ICT.

### **EXPRESSION OF INTEREST AND INSTITUTIONAL MEMBERSHIP**

---

This application expresses the interest of **The ICFAI University, Jaipur** to join the European Alliance for Innovation as an Institutional Member. The Affiliated Organisations Group (embodying non-profit public authorities, national and regional bodies, and professional societies and communities) participates in and contributes to EAI's strategic discussions through EAI online and onsite public forums. In addition, an Institutional Member collaborates inside the EAI framework to promote its objectives and provide its members with preferred access and participation in EAI research and innovation activities.

This MoU sets forth the considered rights and obligations relating to their participation consistent with the above understanding of the common mission.

**Being an Institutional member of EAI provides the member with:**

- ◆ Community, tools, and active participation for promoting member's vision and mission through participation in all EAI activities at organizational and individual member levels ;
- ◆ Cooperation in EAI community activities:
  - Participation of Institutional Member Institutions in summits/workshops/conferences, publications and use of advanced collaborative tools of innovation to bridge research ideas with the market, in all areas within the EAI mission to promote innovative ideas, individuals and organizations;
  - Support the professional development of members of Affiliate Institutions through preferred participation in EAI-related activities;
  - Provide increased visibility of member organisation by displaying its organizational logo on the EAI website on EAI approved joint activities.

**Institutional Members will:**

- ◆ Uphold EAI mission and principles, which seeks to improve professional standards through participation in their development, use and enforcement.
- ◆ Provide EAI a point-of-access to the members' community for dissemination of the weekly EAI newsletter and participation opportunities within the scope of EAI innovation activities;
- ◆ Promote organization's members engagement in EAI Community activities through active participation and contribution to EAI sponsored activities;
- ◆ Display EAI logo on the organisation's website and other dissemination materials as appropriate and display the organisation's logo on the EAI website;
- ◆ Contribute to the strengthening of the Innovation process, by proposing joint research, development and innovation activities with EAI;

**TERMS**

---
