We are happy to release May 2021 issue of “**Kshitij**”, a quarterly Newsletter of The ICFAI University, Jaipur. This newsletter brings cheers, displaces gloom and reflects positivity amidst uncertainty because of pandemic. The University has been making progress in all directions and truly on the path of rapid growth.

“We are not sure of tomorrow but we are pretty sure of today, therefore, efforts are being made to make best out of today”. Currently, our operations are online, classes and other activities are being conducted online as we had to suspend operations on-campus in compliance with the Government directives. But our dreams are bigger, our commitments are deeper, our efforts are tireless and our vision is sound and clear.

The pandemic has however given many heartbreak news. At this point of time, we recall our beloved Shri. E N Murthy, the Member Secretary, The ICFAI Society who left us for his heavenly abode. His departure has indeed created an irreparable loss and a void, hard to fill. He will always be remembered for his exemplary commitment to the work, simplicity, and zeal to take ICFAI Group to new heights.

The ICFAI University, Jaipur fondly offers a glowing tribute to late Shri. E N Murthy Sir.

Wish you all a safe stay with request to follow Covid guidelines. We are sure that we deserve a brighter sun tomorrow.

Warm Regards,

Dr. Rajesh Kothari
President

Changes

In search of wealth,
We are ignoring our health
To get the peace of mind,
We have to devote some time

Be curious,
But not furious
Stop overthinking,
Start performing

Say no to tension,
Find a connection
Don't be an emotional fool,
Just make it a bit cool

Don't be lazy,
Let's do something crazy
Be focused,
To avoid ruckus

Don't make it a mess,
Just confess
Don't fry
Just give it a try

Now it's the time to reform,
Time to perform
Time to take an action,
For our mental satisfaction

Stop being lonely,
Find someone friendly,
Have some rest,
to make it the best.

Sport can create hope, where once there was only despair. It is more powerful than governments in breaking down racial barriers. AN ADVISORY FOR ONE AND ALL BY THE ICFAI UNIVERSITY JAIPUR

A file photo from Spanish Flu pandemic of 1918. They didn't have RTPCR, ventilators, vaccines or any modern medicine. No question of knowing mutations (which surely had happened). Millions died, several had permanent sequelae. But they controlled it within 2 years with just two weapons: "Masks" and "No gathering" It's strange that after a century we failed to realise the importance of these two simple measures.
